## **Authentic Leadership**

William W. George

What is authentic leadership? How can you become and remain an authentic leader? In this timely presentation, Professor William George outlines what it means to be a leader. Leadership is not about style or emulating another leader. It's about responsibility and stewardship. A true leader appeals not only to people's minds, but to their hearts, as leaders demonstrate through their vision and values. Topics covered: Leadership.

## **Building Strategy-Focused Organizations with the Balanced Scorecard**

Robert S. Kaplan

Is your organization strategically focused? If not, you may need to consider developing a Balanced Scorecard strategy map. Professor Robert S. Kaplan first outlines the development of a Balanced Scorecard and describes its use by many successful organizations. Then he uses case studies of successful for-profit and nonprofit organizations to describe how to take the process to the next level, into strategic implementation, using a Balanced Scorecard strategy map. Topics covered: Finance and Accounting; Strategy.

## **International Entrepreneurial Finance**

Walter Kuemmerle

How will a global perspective increase my organization's likelihood of financial success? What's most important to consider in local adaptation—economic, political, or social issues? In this presentation, Professor Walter Kuemmerle offers important insights for anyone thinking about starting up or expanding a business in an international context. Topics covered: Finance and Accounting; Global Business; Innovation and Entrepreneurship.

摘要: This article reports that the regions of the Earth that have contributed least to **global warming**, most notably Africa, are the most vulnerable to its harmful effects. The article also explores the health dangers associated with climate change in cities and on coastal populations. Large cities experience "urban heat island effect," which can cause health problems. Coastal flooding as a result of storm surges will affect up to 200 million people by 2080. The highest risk coastlines are along the Pacific and Indian Oceans and in sub-Saharan Africa. The article also discusses the need of fast growing economies like **China** and India to develop sources of sustainable energy.

SPECTRUM

The places that have contributed the least to **warming** the Earth are the most vulnerable to the death and disease higher temperatures can bring, according to a 16 November report in *Nature*. Health and climate scientists at the University of Wisconsin-Madison and the World Health Organization (WHO) have shown that the growing health impacts of climate change affect different regions in markedly different ways.

Africa has among the lowest per capita emissions of greenhouse gases, yet regions of the continent are at an increased risk for **warming**-related disease. Many of the most important diseases in poor countries, from malaria to diarrhea and malnutrition, are highly sensitive to climate," says coauthor Diarmid Campbell-Lendrum, a scientist at the WHO Department for Protection of the Human Environment. "The health sector is already struggling to control these diseases, and climate change threatens to undermine these efforts.

Large cities that experience the "urban heat island effect" are also susceptible to temperature-related health problems. Flooding as a result of coastal storm surges will affect the lives of up to 200 million people

## EBSCOhost Research Databases

EBSCOhost is a powerful online reference system accessible via the Internet. It offers a variety of proprietary full text databases and popular databases from leading information providers.

The comprehensive databases range from general reference collections to specially designed, subject-specific databases for public, academic, medical, corporate and school libraries.

### EBSCO Support Site

EBSCO's [Support Site](#) is available 24 hours a day, 7 days a week. Our FAQ database, [tutorials](#), and user guides can provide answers to your technical questions.

EBSCO Customer Support Representatives are also available by [phone](#) and [e-mail](#) 24 hours a day, Monday through Friday, as well as Saturday and Sunday from 9 a.m. to 5 p.m. (US EST).

### How to Use Help

- When the Help icon  appears, you can click the icon and help for the screen you are on will display.
- To obtain help for the database(s) you are searching, click the Help icon  to the right of the Find field and click on the Database name at the bottom of the left-hand side of the Help window. Database help is also available from the Choose Databases window.
- To view the entire Help System, click the [Help](#) link at the top right-hand corner of the screen.

**Note:** The recommended screen resolution for EBSCOhost is 1024 x 768.
